

Biological Agents Request Form

All PI's and group leaders must use this form to request permission to import any containment level 2(CL2) and above organisms, including GM CL2 into the GBRC for any purpose. This form must be completed and countersigned by the Chair or Biosafety Officer of the GBRC Safety Committee. Please include a copy of the risk assessment with this application. Permission will not be granted until a risk assessment has been completed. Please be aware that approval may be granted with restrictions or conditions to the work.

If approval is granted this form will be kept by G. Tobasnick who will notify you by e-mail of the outcome.

Name:	Staff number:
Ext number:	E-mail:
Organism:	
ACDP Category:	
GM Class:	
Biological/GM Risk Assessment Title and No:	
Method of storage: & location (room No)
